Preliminary Gong Target Rules

See "Range Configuration for Gong Targets".

1. Target hangers are placed at the left edge of the current backstop. No part of the current backstop is affected by the target hangers.
2. One hanger is placed in line with the current backstop. The second hanger is placed parallel to the backstop at the current 10 yard marker line.
3. A physical barrier is placed at the current 25 yard line. ALL shooting of gong targets must occur from behind the physical barrier.
4. Any shooter firing at gong targets from inside the physical barrier will be asked to leave the range.
